10.2HD - Links for tutorial

Youtube Link

Link to tutorial video: https://youtu.be/6G8hWUZ5zyU

Instructions

1. Cocktail API: https://www.thecocktaildb.com/api.php

   Lookup a random cocktail: www.thecocktaildb.com/api/json/v1/1/random.php

2. Create Vue project: https://cli.vuejs.org/guide/creating-a-project.html

   ```
   > vue create random-cocktail
   ```

   (Choose Vue 3 as the default)

3. Install Axios to make HTTP requests: https://axios-http.com/docs/intro

   ```
   > npm install axios
   ```

4. Install Bootstrap: https://getbootstrap.com/docs/5.0/getting-started/download/#npm

   ```
   > npm install bootstrap
   ```

5. In main.js, import Bootstrap

   ```
   import 'bootstrap/dist/css/bootstrap.css'
   ```

Follow the tutorial in my YouTube video.
